37. Pardon me, _____ she speak English?

- A. do
- B. don't
- C. does
- D. doing

The camel can go without water for a long period of time. Some people think it stores water in its hump. This not true. It stores food in its hump. The camel's body changes the food into fat. Then the fat is stores in the hump. A camel cannot store the fat all over its body. Fat all over an animal's body keeps the animal warm. Camels live in the desert They don't want to be warm during the day.

The desert is very hot. The camel gets hotter and hotter during the day. It stores this heat in its body because the nights are cool.

The Arabian camel has one hump. The Bactrian camel of Central Asia has two humps. It also has long, thick hair, because the winters are cold in Central Asia.

There is a lot of sand in the desert. The camel has long eyelashes. The eyelashes keep the sand out of the camel's eyes. Arabic has about 150 words to describe a camel. Many people who speak Arabic need all these words because the camel is very important to them.

38. The camel can go without _____ for a long time.

- A. food
