The Research Proposal

The Research Proposal

- 1- What is a research proposal?
- 2-Why should you present a research proposal?
- 3- How to Develop the Research Proposal?
- 4- Suggested Format for the Research Proposal

What is a Research proposal?

Various terminologies are used to mean a research proposal depending on why the research is carried out?

Research outline ✓

Plan of research ✓

Research/project proposal ✓

Thesis plan ✓

It details how the study will be completed in order to achieve the aims and objectives and address the research questions or problems.

Why should you present a research proposal?

- 1- the research proposal is meant to convince your supervisor or department of the validity of your research project and that you have the ability and the work-plan to complete it.
- 2- Witting the research proposal gives you an opportunity to think through your project carefully, and define what you exactly want to investigate.
- 3- The research proposal can provide you with an outline that guides you through the research process.
- 4- Lets your supervisor and/or department know exactly what your research is going to be about and how you are going to do it.
- 5- The research projects helps the department to choose an appropriate supervisor based on the latter's specialization.

How to Develop the Research Proposal?

1. Choosing an appropriate research topic .
2. Narrowing down and focussing your topic
3. Determining research objectives
4. formulating specific research questions for investigation .
5. Outlining the main literature in the topic area
6. Deciding on research methodology.
7. Proposing an approach to data analysis
8. Developing a timeline
9. Developing a budget and resources you will need
10. Developing a bibliography/list of references.

Suggested Format for Research Proposal
