8.	Choose the sentence which expresses one plagiarism type:
	A. You reference the quotations
	B. You acknowledge other people's ideas
	C. You mention who helped you in your research
	D. You use one of your research as two pieces of research
9.	In the researchers can present a previous research critique in the same general area
	A. Preview of landscape
	B. Literary interview
	C. World literature
	D. Literature review
10	. Research is
10	A. looking for previous studies
	B. looking for new ideas and findings
	C. looking for data only
	D. looking for knowledge only
11	. a research is good if it involves:
	A. Visual data
	B. Novel data
	C. Shocking data
	D. Recorded data
12	. One of the ways a researcher can be can sure that his/her topic selection is good is to

	B. Anal	lyse the results
	C. Do a	literature review
	D. Stop	analysing your data
13.	As a res	search component, the term 'methods'can refer to
	B. A pr	ocedure used to analyse data or to contact other researchers about the topic ocedure for accomplishing or approaching something, esp. a systematic or blished one
	C. A pr	ocedure used to summarize data and try to publish the results
	-	type of researcher and his preferred way of analysis
14.		can enable researcher to generalize from specific sample(s) than they
	measur	ed to wider population they sampled
	A. Popu	ular statistics
		rnational statistics
	_	rential statistics
	D. Inte	rnet statistics
15.		rch questions is
	-	lestion that we ask about the statistics used
	=	restion that we ask in the beginning of our research and look to find an wer for
	-	estion that we ask about how to write-up the research
	D. A qu	restion that we ask about the list of references
16.	Using o	f one variable in one's research can mean that it is a
	A. Unil	ateral
	B. Mult	tilingual
		tivariate
	D. Univ	variate
17.		d a situation in which other variables can affect your variables one needs
	make tl	hese variable
	A Cons	sonants

A. Do a PhD thesis

**B.** Manipulative

18.	Variables whose effects are excluded can be called
19.	when you use quantative methods, you
20.	In the introduction section of a research, we start talking about
21.	Choose the sentence that can be a definition for the term 'design'.  A. It is used to summarize data  B. It is used to highlight the research problem  C. It is a logical structure of the inquiry ( research )  D. It is used for referencing
22.	We can use questionnaires in ELT to
23.	In the longitudinal research method the same groups of people are observedas they grow older

C. VariableD. Constant

24. Data elicited in the form of people's about language ........... A. Is rarely used in applied linguistics B. Is mostly used in ELT C. Is never used in sociolinguistics D. Is mostly used in computational syntax 25. ..... quantify the amount of relationship between two or more variables as measured in the same group of people A. Deterrent measures B. Measures of water C. Measures of relationship D. Measures of difficulty 26. The ..... would be to propose a novel theoretical of novel data A. Lowest attainable level of originality in research B. Highest unattainable level of originality in research C. Modest attainable level of nativity in research D. Highest attainable level of originality in research 27. Research results should ...... A. Be relevant only to classrooms B. Have wider implications C. Restricted only to our contexts D. Not involve interests to any person 28. The abbreviation APA refers to a famous style for ...... A. Speaking referral letters **B.** Writing deferral offers C. Writing references **D. Listening Arabic letters** 

A. At one point in time

D. At different point in time

B. Every hour

C. Every minute

29.	In the 'implications' section of a research, a researcher talks about
	A. The general results for our context only
	B. The framework and research questions
	C. The analysis of the results
	D. The wider implications of his/her research
30.	refer to a variable that is manipulated by the researcher ( or the variable
	that is thought to affect the outcome )
	A. The doomsday day
	B. Independent variable
	C. The dependent variable
	D. Independent clause
31.	The termrefers to procedure that is used for defining and measuring a
	construct
	A. Dysfunctional definition
	B. Optical definition
	C. Operational definition
	D. Opera definition
32.	The can refer to a statement that describes or explains a relationship among variables
	A. Hypothalamus
	B. Hyper sensitivity
	C. Hippopotamus
	D. Hypothesis
33.	Review and point be explicitly Toyour specific project
	A. Irrelevant
	B. Not connected
	C. Connected
	D. Dictated
34.	In the literature review, the researcher can
	A. Disambiguate the work of other researchers
	B. Disentangle different opinions of scholars

	C. S	ummarize the findings of his/her research
	D. C	Categorize the data of his/her study
35.	. In th	ne literature review, you talk about
	A. P	revious studies and a critique for them
	B. T	he evidence relevant to the data
	C. T	he findings and results of the research
	D. T	he money and its significance
<b>3</b> 6.	In cl	noosing a research topic is very important
	A. V	Vorking as a bus driver
	B. T	ime limit
	C. E	motions
	D. V	Vealth
<b>37</b> .	Exar	mples of where someone can find samples and administer research tools are
	Λ ν	····
		our own car
		our own organization, company, university or others our own briefcase
	_	our own head
38.	Lang	guage acquisition by Arab learners' is to be viable as a research topic
	A. V	/ery specific
	B. T	oo narrow
	C. T	oo broad
	D. A	All the above
<b>3</b> 9.	A ca	se study about the development of personal in the grammar of a two-year old
	bilin	gual child in a small city Saudi Arabia' is a
	A. S	pecific and hence manageable research topic
	В. С	General and hence unmanageable research topic
	C. T	oo broad and hence is not a viable research topic

D. Unusual and hence is not suitable as a research topic

40. In order to establish a good classification/categorization and a proper variable, the system should
A. Mix categories of similar types in one set,
B. Be exhaustive and have mutually exclusive categories
C. Seek data analysis from students
D. Look for a better framework
41 You choose, the more open-ended your research becomes.
A. The more difficult the topic
B. The older the topic
C. The more recent the topic
D. The broader the topic

### 42. Our ..... should discuss previous works relevant to our research.

- A. Conclusion
- **B.** Findings
- C. Literature review
- D. Data analysis

## 43. When a research is accused of plagiarism, his research ......

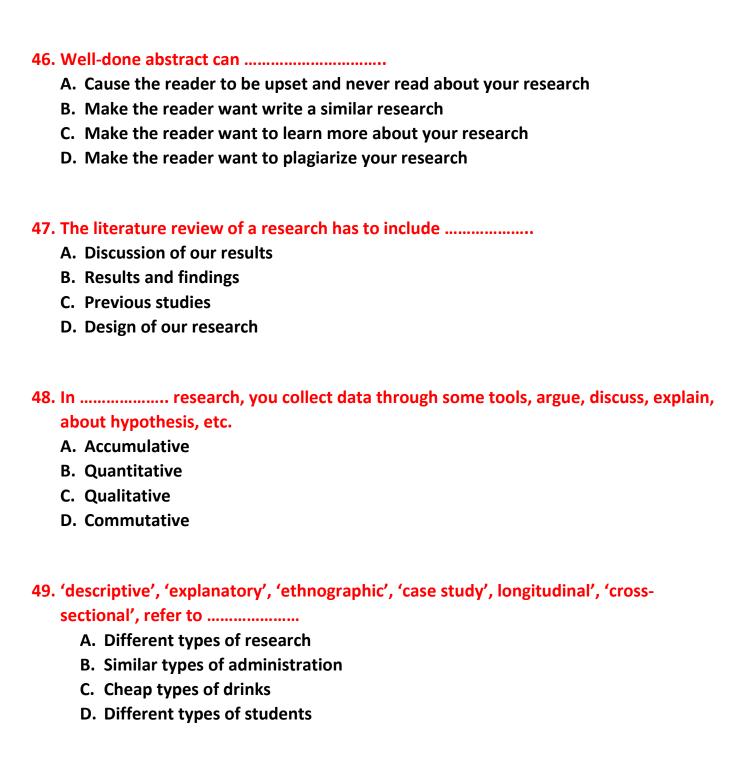

- A. Shall be important
- B. May not be accepted
- C. Will be sent to another university
- D. Shall be successful

#### 44. Good reports usually consist of .....

- A. Methods-results-introduction-literature review-bibliography
- B. Abstract- introduction-literature review-methodology-results
- C. Abstract-literature review-results-introduction
- D. Conclusion-methodology-results-introduction

## 45. A poorly-written abstract .....

- A. Will not attract the attention of the reader
- B. Will attract only one or two other researchers
- C. Will attract the attention of other researchers to read it
- D. Will attract the attention of everybody

- 50. In ...... section of a research, the researchers explain what did they actually do in order that they achieve their results.
  - A. Conclusion
  - B. Methods
  - C. Problem statement
  - D. Research question
