They will want to go out to stores for shopping. They will want to socialize. Shopping in stores will be easy. People will not need to carry many bags from store to store; they will only choose products. The stores will deliver most of their purchases to their houses and people won't need to carry money or credit cards with them. An eye scan will identify their eyes. They won't only have big department stores and many small stores. Malls will still be places for shopping and entertainment. But in malls of the future, busy people will also go to the doctor, the dentist, and the post office. They will go to gym, too. Everybody agrees about one thing: shopping will be different in the future.
